

SAN FRANCISCO, April 21.—Weather forecast: San Francisco and vicinity—This afternoon and tonight cloudy, unsettled weather, possibly light showers; Friday fair, light southerly wind.

RUSSAINS ARE AFTER AMERICANS AND ENGLISHMEN

AMERICANS DESPISED BY SLAVS

Their Lives Are Not Safe in Manchurian Territory.

Englishman Said to Have Been Executed at Mukden.

BERLIN, April 21.—The correspondent of the Frankfurter Zeitung, writing from Harbin, Manchuria, under date of March 16, says:

GREAT BITTERNESS.
"Great bitterness has been aroused throughout Manchuria against Americans and British because it is believed American and British vessels took part in the bombardment of Port Arthur under the Japanese flag. This belief is due to the fact that the Japanese fleet is larger than the Russians anticipated and included unknown types of vessels.

AMERICANS NOT SAFE.
"The feeling is so strong that Americans and British are not safe anywhere in Manchuria. One railway, an American, and several others, including Davidson, a Canadian, have disappeared. The authorities are looking for them.

ENGLISHMAN SHOT.
"It is reported that an Englishman was arrested in Port Arthur as a spy and was taken to Mukden and hanged.

"The flying of the so-called flower boats on the Liao river, mostly under the American flag and carrying American guards, has been prohibited.

NEED FLOUR.
"Southern Manchuria has been scourged for several months for supplies of flour destined for Port Arthur, which is reported to be provisioned for two years."

For more than three years the school accommodations of Oakland have been insufficient while the number of school children rapidly increases. If the school bonds fail to carry next Saturday the department will have to get along for another two years in its present overcrowded condition.

GUARD LEAVES SEOUL.

SEOUL, Korea, April 21 (6:30 p. m.).—Lieutenant Deane C. McDougall, United States Marine Corps, and seventy privates of the marine guard which has been on duty at the American Legation here, have been ordered to leave. They will sail from Chemulpo on the United States cruiser Raleigh for Manila.

During their stay here the American marines have been crowded in a small house in the Legation compound. The impossibility of housing the men properly during the hot weather, the tranquil conditions prevailing at Seoul at the present time, and the presence in the city of a Japanese garrison sufficient to quell any disturbance which might arise, have led the American authorities to decide upon the reduction of the Legation guard.

Remember that every school house is a polling place, and that the bond election takes place next Saturday.

TERRIBLE STORM IN UTAH.
SALT LAKE, Utah, April 21.—Delayed trains and demoralized street car, telephone and telegraph service have resulted from the storm which raged yesterday and all last night throughout the Intermountain country. The storm in Salt Lake was the most severe April storm for several years. About half an inch of rain and five inches of snow fell.

W. W. GARTHWAITE SAYS VOTE FOR SCHOOL BONDS.

Says Their Defeat Would Retard the Development of the City.

"I am heartily in favor of the school bonds. I wish to be as emphatic on that point as possible. In my opinion, the people of Oakland will make a grave mistake if they do not vote them. Their defeat would be a bad advertisement for the city, and would retard if not actually arrest our municipal development. The needs of the schools are a necessity, the very first necessity, and they should be served promptly and heartily.

"We cannot let it go forth to the world that Oakland will not give adequate support to its school system which has long been our pride and distinction. The demands of the school department are in the main necessary and are not unreasonable. They should be accorded to without question. I would regard the defeat of the school bond issue in the light of a misfortune."—W. W. Garthwaite, cashier of the Oakland Bank of Savings, in an interview.

RUSSAINS TO SHOOT SPIES.

Stringent Orders Will be Enforced at New Chwang.

Pilots Will Have to be Careful or be Shot.

NEW CHWANG, April 21.—An order issued by the Russian military authorities throughout the commission of customs here, notifying the pilots of New Chwang that any pilot who gave assistance to any Japanese ship in the waters leading to New Chwang would be held responsible to the full extent of martial law, has been made a subject of inquiry of the authorities by three of the foreign consuls here with regard to the exact meaning of the words "to the full extent of martial law."

To these inquiries, the Russian authorities replied that the assistance of Japanese ships in the waters mentioned would subject the offending pilots to the same treatment given Russian subjects and traitors, based upon the fact that the Russian authorities have declared New Chwang to be under martial law.

In their reply to the consuls, the authorities affirmed further that on the other hand pilots could be compelled to pilot Russian vessels or forced to leave New Chwang. The Russian authorities held that under the existing martial law, foreigners are upon the same status as Russian subjects but the foreign consuls aver that foreign residents of New Chwang who might assist the Japanese can be held responsible for the acts only as belligerents and can not be regarded as Russian subjects.

The correspondent of the Associated Press secured the approval of the Russian censor before sending this message although at the present time such approval is not necessary.

BATTLE AT SEA.

PORT ARTHUR, April 21.—Further details of the action of the cruiser Bayan during the night of April 13 show that in covering the retreat of the Russian torpedo-boats she approached within thirty cable lengths of the enemy in attempting to rescue the Strashni's crew and stand broadside to the enemy, keeping four cruisers at bay while she lowered her boats on the other side and picked up five sailors. In spite of the weight of the enemy's fire, not a single man on the Bayan was wounded. One of the Bayan's shells fell between the smoke-stacks of one of the Japanese cruisers, producing a heavy explosion on board.

WANT TO FIGHT.

TOKIO, April 21 (4 p. m.).—The War Office here is flooded with thousands of applications from Japanese of all ages and every condition of life for permission to go to the front and fight. These applications are from time-expired soldiers, as well as from young boys, and the

DR. ADAMS ELECTED HEAD OF MEDICAL SOCIETY.

DR. FRANK L. ADAMS, PRESIDENT OF THE CALIFORNIA STATE MEDICAL SOCIETY.

PASO ROBLES, April 21.—Dr. Frank L. Adams of Oakland was this morning elected president of the State Medical Society. This is considered quite an honor.

Dr. Frank Lemuel Adams of 1230 Telegraph avenue is one of the prominent physicians and surgeons in Oakland. He was born in Troy, N. Y., in 1855, but has lived in Oakland nearly all his life, having come here when a small child. He has been practicing medicine here for more than twenty years.

Dr. Adams was a member of the Oakland Board of Health for some time and Health Officer of the city. He is at present president of the Oakland College of Medicine and Surgery. Prior to his election he was for two years a member of the Board of Trustees of the State Medical College.

ages of the applicants range from 14 to 70 years. They are following the Samurai custom and sign their applications with their own blood and several applications written entirely in the blood of the would-be fighters have been received. None of these volunteers have been accepted as yet.

The War Department officials are much gratified at this evidence of the desire of the people to assist in the war. The applications have been filed away and if volunteers are needed these applicants will be given the first opportunity to go to the front. The officials believe that the country would find it easy to obtain a million volunteers.

AT PORT ARTHUR.

PORT ARTHUR, April 20.—(Delayed in transmission.)—The situation here is unchanged.

A large launch from the Petropavlovsk was brought into the harbor today. Two German naval officers have arrived here. They will be attached to the Russian headquarters. The cruiser Bayan suffered no damage from the hail of shells poured upon her from the Japanese warships, when the Bayan went to the assistance of the Russian torpedo boat destroyers on April 13, just previous to the sinking of the Petropavlovsk. The Bayan, in driving off the Japanese destroyers, which had sunk the Strashni, was subjected to the fire of six Japanese cruisers.

ALL IS QUIET.

PORT ARTHUR, April 21.—All quiet here since April 15. There are no signs of the enemy's transports off the coast of the peninsula.

Remember that every school house is a polling place, and that the bond election takes place next Saturday.

ALEXIEFF'S RESIGNATION.
TIEN TSIN, April 21.—Russians at Tien Tsin do not believe that the recent resignation of Admiral Alexieff as viceroy of the Emperor in the Far East, will be accepted by the St. Petersburg authorities.

HARRIMAN IS NOT AT WAR

Declares That He is Very Friendly With J. J. Hill.

He Will Not Discuss the Decision in the N. P. Case.

LOS ANGELES, April 21.—E. H. Harriman today refused to discuss in any way the St. Paul decision or the matter of the distribution of the Northern Securities stock.

"As regards my personal relations with James J. Hill," said Mr. Harriman, "they have always been of the most pleasant character, are so at the present time and I hope always will be."

As proof of his cordial relations with Mr. Hill, Mr. Harriman called attention to the fact that the former's son, James N. Hill is one of his guests on the present trip. Mr. Harriman stated that his Western trip at this time has no special significance whatever, being merely one of periodical trips over the railway lines under his management.

This morning the party was joined by J. C. Stubbs, traffic director and E. O. McCormick, general passenger director of the Harriman system. A trip was taken to Long Beach and San Pedro this afternoon, where they inspected the new Government breakwater. Returning to the city, the party enjoyed luncheon at the Van Nuys Hotel. The special leaves at five o'clock this evening for San Francisco by way of Santa Barbara.

Every citizen should take notice that his polling place for the school bond election is the nearest school house. Next Saturday is election day.

BRIGHAM ROBERTS ON STAND.

INVESTIGATION RESUMED OF PROTESTS OF SENATOR SMOOT.

WASHINGTON, April 21.—Brigham H. Roberts was recalled by the defense today when the Senate Committee on Privileges and Elections resumed its investigation of the protests against Senator Reed Smoot.

Mr. Van Cott drew from the witness a review of the elections of Utah to show that the Democratic successes of the State were due to the "silver craze" and that the Mormon Church had not maintained a vacillating policy between the two political parties, as had been inferred from the testimony given by Mr. Roberts yesterday.

Calvin Cobb, publisher of the Boise Statesman, was examined in regard to the polygamy idea and the influence of Mormons on the politics of the State. He said there is no statute against polygamous cohabitation, though several unsuccessful efforts had been made to enact such a statute. All of these measures, he said, had died in the Legislature, which is one-third Mormon. Mr. Cobb related before the committee the Legislature to have called a constitutional convention to enact an amendment to repeal the Idaho test against Mormonism, and finally Apostle John Henry Smith visited Boise and soon after the resolution was adopted.

Every citizen should take notice that his polling place for the school bond election is the nearest school house. Next Saturday is election day.

Remember that every school house is a polling place, and that the bond election takes place next Saturday.

FIERCE BATTLE ON TRAIN.

Soldiers Bayonet Prominent Miners' Union Officer.

Moyer's Arrival in Denver Caused a Desperate Battle.

DENVER, Colo., April 21.—When the train arrived this morning bearing President Moyer and his guard, there were a number of people at the depot to meet them, including Secretary Haywood of the Western Federation of Miners. Haywood walked into the train and shook Wells immediately jumped on Haywood to strike him. Haywood knocked Wells down and two soldiers knocked Haywood under a seat. He was arrested and with Moyer taken to the Oxford Hotel.

There the trouble broke out again and Haywood knocked two soldiers down, the other troopers jumping into the fight and Haywood was bayoneted and clubbed with muskets until he was insensible. A riot call was turned in, but when the police arrived the soldiers refused to give up Haywood.

Later Haywood recovered consciousness and is now receiving medical treatment. The military claim they will hold him on a warrant charging desertion of the flag. Chief of Police Armstrong has not yet made a demand for the surrender of Haywood, who is constructively under arrest in Denver.

There is a dispute as to who struck the first blow at the depot. According to the military, when Haywood tried to speak to Moyer, Captain Wells told him he could not talk to the prisoner and Haywood turned and struck Wells in the face.

Haywood's worst injuries from his two fights were a deep cut on the left side of the head and one on the right side of the head. Surgeons were forced to take a number of stitches in the wounds.

General Bell says he will take Haywood to Telluride as a military prisoner if the Supreme Court sustains the Government's position.

Charles H. Moyer, president of the Western Federation of Miners, will appear before the Supreme Court this afternoon at 2 o'clock for the hearing on.

HEARST GETS FAIR DEAL.

Olney's Supporters Are Inclined to Be Liberal.

Big Battle on Floor of Boston Convention Avoided.

BOSTON, Mass., April 21.—Before the Democratic State Convention to select delegates-at-large to the national body at St. Louis, assembled today, there were indications of a more harmonious session than the leaders previously had expected.

The contests between the factions of the party due to preferences for Presidential nominees, were fought out to a considerable extent and disposed of during the night.

The State Committee was in session until an early hour today and a spirit manifested in the State Committee and the supporters of Mr. Olney in the proceedings to give the Hearst forces what they termed a fair recognition on the various convention committees, contributed largely to this end.

NO UNIT RULE.

But of far greater importance in the view of Mr. Williams and the Hearst delegates was the decision of the committee waiving the adoption of the unit rule for the Massachusetts delegation on the contention of the Hearst faction that a clause in the convention call by which the convention would have the right to control the action of delegates elected in the various Congressional districts was illegal. This clause was ordered stricken out on the ground that it had been irregularly inserted.

HEARST DELEGATES.

In consequence of these developments in the situation the Hearst delegates appeared at Tremont Temple before the convention in a more conciliatory attitude than has been apparent in several weeks.

On the other hand, the Olney men expressed satisfaction at the prospect of controlling the convention. They claimed

OAKLAND AT THE PARTING OF THE WAYS.

Defeat of School Bonds Means Stifling of Advance Movement in City.

The time for taking the first decisive step in improving the city is now at hand.

On Saturday it will be decided whether the long-discussed plans for making Oakland a greater, more beautiful and more attractive city shall fall to the ground or arrive at the first stage of fruition. We have come to the parting of the ways.

For many years the need of municipal betterments has been acknowledged by all, has been emphasized repeatedly in political platforms and voiced in the public press.

A Boosters' Club, with a membership of nearly 900, has been organized with A. D. Coplin as president, having for its object the stimulation of the spirit of progress. This club was organized to arouse civic pride and promote co-operation among all the elements favoring advancement. It was to give united support to the project of improving and beautifying the city and making it worthy of its people and its destiny. It was to infuse the impulse of energy into the progressive spirit of the town.

First among the schemes in the general plan of municipal development is the improvement of the schools. This alone should enlist the hearty support of every enlightened public-spirited citizen. But in the present posture of affairs, the question of school betterments is of deeper

significance than the urgent need for ample educational facilities. It involves the whole question of municipal improvement. Voting bonds for the schools is the initial step in a comprehensive scheme of advancement. If the school bonds fail, the whole scheme falls with it. It is all-important therefore that the school bonds should be voted. Defeat for them means the stifling for some time to come of the whole movement for municipal advancement. The friends of progress must march to the polls in a body next Saturday and vote for the school bonds or be called out in the first round. The Boosters may as well close up their headquarters and disband if they allow the school betterments to be voted down.

They may as well realize this at once. If the citizens of Oakland refuse to improve their schools and provide the facilities now demanded for the education of the young, the other projects in the scheme of municipal development had better be dismissed at once. We have got to go forward or backward.

The spirit of progress is now put to a practical test. If it balks at the first hurdle, it will not have energy enough to essay the next, let alone leap it. Therefore the success of the school bonds means everything to Oakland. Their defeat will be a blow to the advancement of the city.

Real Economy

made possible in the

Women's-wear Store

In buying, both prices and values must be considered. An article low in price may also be low in value. If so, it's a poor buy. Real economy results from buying when low price and high value meet. That place is the Taft & Pennoyer store.

Here are a few examples from the women's wear department to prove it:

Child's Coat

This coat is of cheviot—blue, brown or red. It is a double-breasted semi-fitting box coat, and is collarless. The coat has shoulder capes, and is trimmed with silver buttons, and silk braid. Price

\$5.50

Tan Corsette Coat

Here we have one of the new twenty-four inch corset coats. It is of tan covert and has a full sleeve with turn-back cuffs and single-breasted fly front. Altogether, you would not expect to buy this quality coat for less than \$10.00. Price

\$7.50

Misses' Suit

This suit of blue or light tan tweed is very summery in appearance. The jacket is an eton with a straight front, fancy flat collar, shoulder capes, and full sleeves with deep cuffs. The skirt is seven-gored and pleated. Girdle, collar and vest of white cloth are trimmed with brown and gold braid. Worth \$13.50. Price

\$9.50

A Low Priced Suit

At first glance you would say this suit was marked not less than \$18.50. The good quality of blue and white flaked cheviot which has been put into it gives it the wearing quality of an \$18.50 suit, as well. The jacket is a collarless eton with straight front. It has double capes which give it a long shoulder effect, and a narrow vest of white and black silk trimmed with gold braid and buttons. The skirt is seven gored, and flares wide. Price

\$14.50

Silk Shirt-Waist Suit

These shirt waist suits have come so late in the season that we have marked them far below their value. They are of brown, blue, or black satin fouled in polka dot and figured effects. The waist opens in the back, and has a full blouse front which is cluster tucked at the shoulder. The collar, shoulder and sleeves are elaborately trimmed with lace, and the skirt, which is seven gored and pleated, has narrow tucks about the bottom. A \$18.50 value for. Price

\$15.00

A Waist Spectal

This white waist, dainty and crisp, is of sheer lawn. It has four large hemstitched pleats down the front, and a bucking on either side which forms a yoke. Its cuffs are tucked and stock hemstitched. Regularly \$1.35. Price

\$1.10

Kimonas

Kimonas of fancy figured lawn with full sleeves. Collar and cuffs and front are edged with broad bands of white or blue lawn. Price

MISS LITTLE'S WORK.

All readers of the TRIBUNE will be much interested in hearing the words of praise given Miss Little and her recognition of the young California's earnest work was quick and sincere. The first song caused a deep "Wunder-schoen" and the rendering of a pathetic "Hed" of Brahms made even Schumann-Helnek wipe away a tear. "You are an artist, Fraulein, with whom

have you studied?" and madam nodded approval when Miss Little told the names of her instructors. "But I want to broaden my upper tones," said Miss Little. "The quality is perfect," interrupted Schumann-Helnek. "The tone is pure and the temperament is musical too. Now go on with concert and oratorio work and if you ever go to Bayreuth, I will myself give you a letter to Madam Wagner that will make all easy for you."

"Tomorrow Oakland is to have its first public chance to hear Miss Little. She will give in Maple Hall at 8:15 in the afternoon a program of varied songs. There is no such artistically trained voice on the Pacific Coast as all critics admit. The years of hard European study have done a great work and Oakland may well look forward eagerly

ly to the great treat in store for all music lovers.

BOARD OF TRADE ELECTS OFFICERS.

The officers of the Oakland Board of Trade for the ensuing year were elected at the first meeting of the newly elected board of directors, which was held yesterday noon at the rooms of the Board of Trade.

The newly elected officers are: President, H. C. Capwell; vice-president, Charles J. Heeseman; secretary, Edwin Stearns; treasurer, M. J. Keller. After the election the directors indulged in a brief discussion of plans for the coming year and the board adjourned to meet next Friday evening. The new officers are all well known in Oakland and have been prominent in the commercial world upon this side of the bay. Mr. Capwell, the new president, is a leading retail dry goods merchant and has been prominent in Oakland affairs for many years. Charles J. Heeseman, the vice-president, is a leading retail dealer, as is also M. J. Keller, the treasurer. Edwin Stearns has been secretary and the executive officer of the board for several years.

TALKS ON SOCIALISM.

The members of the Civic Educational League were addressed last night by Assistant Librarian Bamford of the Free Public Library on "Socialism." The address extended over a period of an hour and was interesting and instructive, the ideas, methods and successes of the "ism" being detailed by Mr. Bamford, who is one of the most aggressive Socialists in Oakland.

Jack London's "The People of the Abyss" was used for figures illustrating the deplorable condition existing in London, England. The capitalistic system was fully exposed and its many errors shown in contrast to the perfect and humane tendency of Socialism. A short history of the movement was given by the speaker and from time to time charts, illustrations, etc., were used to emphasize and illustrate its accomplishments. At the conclusion of Mr. Bamford's remarks questions were asked regarding Socialism, which he answered. A hearty vote of thanks was extended the visitor, who will at a later date deliver another address on the evils of the present competitive system and the remedies afforded by true Socialism.

VOTING IN ONTARIO.

OTTAWA, Ont., April 21.—The House of Commons divided today on the amendment of the leader of the opposition to the motion of Sir Wilfrid Laurier, the Premier, to go into committee on the proposed modification of the Grand Trunk Pacific contract. The amendment was lost 61 for to 116 against, a majority of 55 for the Government.

HE SAYS TO VOTE FOR BONDS

Good Advice From Pres. Capwell of the Board of Trade.

H. C. Capwell, prominent business man, banker and president of the Board of Trade, in an interview with a TRIBUNE man today concerning the school bonds, said:

"I believe that a man who fails to go to the polls on Saturday and vote for the bonds is derelict in his duty as a citizen, to his family and to the community at large. There is no one thing which so stamps the standing of any community as good schools, and Oakland's reputation as an educational center has been the means of many families settling here.

"Every boy and girl is entitled to a good education and if deprived of it cannot stand an equal chance for advancement in the business world with one who has had educational advantages. The poor man's children in our public schools have an equal chance with the children of the rich—and should have.

"Every voter, in my estimation, should go to the polls on Saturday and cast his ballot for the school bonds, before going to his place of business.

"The man of ordinary means has nothing to fear in increased taxes while the rich man only increases his taxes eight cents on each hundred dollars of taxes he pays. I wish all parents in Oakland would interest themselves in seeing that every voter in their neighborhood voted for the entire list of school bonds before going to business, and possibly being prevented by a rush of business later in the day, from doing so. You can't put me down too strong in favor of bonds to educate the future citizen of Oakland.

"H. C. CAPWELL."

The vessel will be launched by Mrs. Walter Martin, daughter of Henry T. Scott, Miss Florence May Pardee, daughter of the Governor of California, has been selected as sponsor for the cruiser. Miss Florence Pardee is the eldest of the Governor's children. She is in her sixteenth year and is a student in the Sacramento High School. No foreign navy possesses an armored cruiser so powerful as the California. She is as large as the average battleship, she has greater speed and a equal secondary battery, and the main battery inferior only in the caliber of its four largest guns. The disappointment expressed by some Californians when the name of their State was not bestowed upon a battleship

BUILDING TRADES COUNCIL
URGES UNIONS TO VOTE
FOR ISSUE.

The Building Trades' Council, at its regular meeting Tuesday night, discussed the coming bond election for the city of Oakland, and urged affiliated unions to make provision to vote on the question next Saturday.

A committee, consisting of F. H. Pratt, N. Clark and J. Flaudt, drew up the following set of resolutions expressing the Council's attitude on the question of

school bonds: "Resolved, That the Building Trades' Council be a representative organization of Oakland, standing for the advancement of the community, of which it is a part, and whereas the standing of civilization in a city, State or nation is measured by the method used to safeguard the education of the young, and whereas the proposed issue of bonds for the benefit of the city schools is evidence that Oakland is desirous of taking a step forward in dealing with this vital question with the evident intention of keeping pace with its own rapid growth in other directions, be it therefore resolved, That the Building Trades' Council, in regular session assembled, heartily indorses the issue of bonds, the election of which takes place next Saturday; and be it further

"Resolved, That the Building Trades' Council recommends to its affiliated unions the indorsement of said bond issue; and be it further

"Resolved, That the Building Trades' Council recommends to the members of said affiliated unions and all working men and other worthy citizens, a solid vote for the bonds to the end that our schools may take their deserved place in our civic life. Signed,

BABY'S VOICE

Is the joy of the household, for without it no happiness can be complete. How sweet the picture of mother and babe, angels smile at and commend the thoughts and aspirations of the mother bending over the cradle. The ordeal through which the expectant mother must pass, however, is so full of danger and suffering that she looks forward to the hour when she shall feel the exquisite thrill of motherhood with indescribable dread and fear. Every woman should know that the danger, pain and horror of child-birth can be entirely avoided by the use of Mother's Friend, a scientific liniment for external use only, which toughens and renders pliable all the parts, and assists nature in its sublime work. By its aid thousands of women have passed this great crisis in perfect safety and without pain. Sold at \$1.00 per bottle by druggists. Our book of priceless value to all women sent free. J. OSBURN TO SPEAK.
J. Osburn, a blind orator from Denver, Colorado, will deliver a lecture on "Unionism" next Thursday at No. 405 Eighth street. Mr. Osburn is considered one of the most eloquent and best informed of the orators that have made a study of the trades' union movements.

INDORSE AGREEMENT.
The Box Makers' Union indorsed the terms of agreement made between the Oakland Box Factory and the officers of the Provisional Trades and the Central Labor Councils. One provision for the return of all former employees to work without any discrimination was reported as having been lived up to, with the exception of one man. It was afterwards found that the man in question had found employment elsewhere.

OFFICERS NOMINATED.
The following officers were nominated by the Central Labor Council: President, D. C. Crawford; vice-president, H. A. Flaudt; treasurer, H. J. Edwards.

The adjustment of the differences existing between the Building Trades' Council and the Carpenters' Unions was left to a committee consisting of M. J. Lester, J. Cunningham, J. P. Reboll and H. A. Flaudt.

Indorsement was given the new wage schedule of the Cooks' and Waiters' Union, which goes into effect May 1. News of the indorsement of the document was also received from the executive board of the International Union. The agreement will be presented to the employers for signature after the meeting next Tuesday. There are no changes in the new schedule and the schedule now in existence.

BARTENDERS INITIATE.

Nine bartenders were initiated into the local union. Twelve applications were received by the organization. The committee on the day of a week reported that a general observation of the agreement is in force.

ST. LOUIS INCREASES.

ST. LOUIS, April 21.—According to figures compiled by the publishers of the 1904 directory, the population of St. Louis has increased 37,008 within the last year. The figures for 1904 are 633,678. The calculation is based on the number of names in the directory, two and one-half being used as a multiple to determine the total population.

PERSONAL AND SOCIAL.

MISS DE GOLIA IS THE HOSTESS
AT A LARGE
AFFAIR.

Miss Noelle De Golia was hostess this afternoon at one of the most elaborate affairs of the season. Miss De Golia's home on Harrison street was beautifully decorated for the occasion and the rooms were crowded with a happy throng of guests.

SPORTING NEWS FROM FIELD AND CLUB

'VARSITY READY TO MEET STANFORDITES.

Oakland High Team Defeated in Practice Held Preparatory to Field Day.

BERKELEY, April 21.—It took the varsity just five innings yesterday afternoon to pile up sixteen runs against the Oakland High baseball team and in the sixth inning in which the high school boys were at bat they were able to score only one run. The game was sold of very special features and was so one-sided that it was uninteresting to a spectator's standpoint.

The varsity played in good form yesterday and, aside from some wild throwing, played an errorless game. Helmutler was in fine form and the failure of the high school boys to solve his curves cost them the game. Stub went in the box in the fourth inning and pitched good ball for the rest of the game.

Jordan, the high school pitcher was hit at will and at times was given very ragged support. Hughes relieved him in the fourth and was far more effective.

Oakland scored its only run in the fourth inning. Jordan was hit by a pitched ball, stole second and scored on Gharardelli's hit to right field. The varsity scored in every inning. In the first Gillis hit to short and beat the ball to first. Adams sacrificed him to second and he scored on Helmutler's hit through short.

After the first inning the game was a merry-go-round affair with the varsity doing all the going and the game was called in the sixth inning. Following were the runs by innings:

Oakland	1	2	3	4	5	6	7	8	9	Total
Stanford	0	0	0	0	0	0	0	0	0	0
Oakland	0	0	0	0	0	0	0	0	0	0
Stanford	0	0	0	0	0	0	0	0	0	0

THE LATEST NEWS.

HEARST LOSES IN BOSTON.

Olney Captures Delegation From Massachusetts.

BOSTON, April 21.—About 200 of the Hearst men came into the Tremont temple in a body, headed by Mr. Williams. Temporary organization of the convention was effected. A motion that a committee on resolutions be named, to which should be referred all resolutions without reading or debate, was carried by about five to one. This was considered the first sign of the relative strength of the opposing factions. This was the beginning of a series of motions and counter motions which kept the chairman busy. Voice votes were doubted, with the inevitable result that on a standing vote the chair was supported by about five to one. Finally, a recess was taken pending a committee report on credentials. On each of the committees it was reported that Hearst delegates had been given from two to four places.

PERMANENT ORGANIZATION. Permanent organization was effected by the election of John J. Flaherty of Gloucester as chairman. The convention then proceeded to the election of delegates-at-large to the national convention. There were two sets of tickets, known by the name of the respective factions, Olney and Hearst. The former bore these names:

William A. Gaston, Boston; Patrick A. Collins, Boston; William L. Douglas, Brockton; and John R. Thayer, Worcester.

The Hearst ballots had the following names:

George Fred Williams, Dedham; George E. McNeill, Cambridge; Charles A. Deane, Woburn; and Joseph A. Smith, Worcester.

The balloting consumed more than an hour. When the votes were counted, the following platform was presented to the convention:

"The Democrats of Massachusetts in convention assembled, present to the Democrats of the United States the name of Richard Olney as a conspicuously qualified for the office of President."

THE PLATFORM.

After eulogizing Mr. Olney the platform concludes as follows:

"We hereby instruct the delegates and alternates chosen to attend the National Convention at St. Louis by this convention and by the Congressional district conventions to place in nomination the name of Richard Olney as the choice of Massachusetts for the Presidency and we further instruct said delegates and alternates to cast the vote of Massachusetts as a unit for him in the convention until the nomination shall be made or his name shall be withdrawn by authority."

CHEERS FOR FAVORITES.

The first mention of the name of Richard Olney brought forth prolonged applause. When that portion was reached which dealt with the unit rule for governing the delegates there was an uproar. "No, no, it is an outrage," shouted the members of the Hearst faction. Delegates arose in their seats and cheers were given for Hearst. Then the Olney men cheered.

In an instant of quiet John A. Coulthurst announced that he desired to read the minority report of the Committee on Resolutions.

The resolutions of the minority called for the enforcement of the anti-trust laws for the election of a president, "who would not hesitate to run amuck" so long as monopolistic combinations continue; for national supervision of natural monopolies and public ownership of public utilities; and concluded:

"The one man who thus exemplifies these principles as expounded by him is William Randolph Hearst of New York and we therefore endorse him as

HAVENS MAKES A BATTLE.

Trying to Find the Estate Left By His Wife.

John W. Havens of Berkeley, in a court document filed this afternoon, says that his brother-in-law, James M. Goewey, is evading the service of the court's order to appear and state the character and amount of the stock held by the late Gertrude Goewey Havens in the Goewey Estate Company.

He goes on to state that while James M. Goewey is the secretary of the company he has kept away from the office of the company at 406 Sutter street in San Francisco and left the place in the charge of his brother, Charles K. and Herbert Goewey.

At his request a citation directed to these two was also issued, and it will be endeavored to have the appearance of some of them in court to make the required explanation.

As the reason for this action Havens explains that since his wife's death the Goewey Estate Company has levied an assessment of \$10 a share on the stock of the company.

Mrs. Havens' interest in the company was supposed to be worth \$20,000. He says he has been denied any information by the Goewey and the stock is advertised to be sold as delinquent unless the assessment is paid in a few days.

The trouble over the estate of Mrs. Havens began when at her death it was discovered that she had made a will at her death in which she left all of her estate to her infant child, who was born a few days before her death.

In a will she had made shortly after her marriage to Havens she had left all of her interest in the Goewey Estate Company to her three brothers.

Upon the birth of her son her mind changed as to the disposition of her property and she revoked the first will and made another.

The brothers have filed the first will and allege that their sister was not competent to make a will at the time of her death and have begun a contest on this ground. In the meantime they have levied the assessment.

Havens has been appointed special administrator of the estate of his deceased wife and wants an accounting from his brothers-in-law as to the stock held in their company which, up to the present time, he has not succeeded in obtaining.

HEARST LOSES.

Finally, after several efforts a Hearst delegate succeeded in presenting a motion calling for the substitution of the minority resolutions for the majority resolutions. This produced a parliamentary wrangle with a flood of angry speeches. When the chairman at length was able to do so, the motion was put and by a rising vote the substitution of the minority report for the majority report was lost.

A motion to strike out the unit rule paragraph of the majority platform was lost by a rising vote and the platform declaring for Mr. Olney was adopted in the same manner.

THE BALLOT.

The ballot for delegates was announced as follows:

OLNEY TICKET—Collins, 614; Thayer, 514; Gaston, 513; Douglas, 512; McNeill, 265; Smith, 266; Dean, 267.

HEARST TICKET—Williams, 270; McNeill, 265; Smith, 266; Dean, 267.

A motion by Former Mayor Quincy that the resolutions be amended so as to provide that the delegates elected in Massachusetts, both State and district, should vote as a unit at St. Louis, according to the will of the majority, was adopted and the convention adjourned.

JOHN HAWLEY ARRESTED.

John Hawley was arrested this afternoon on the complaint of Lucy Dalton of 1004 Pine street on a charge of obtaining money under false pretenses. She alleges that Hawley represented himself to be an agent of a New York Mutual Insurance company and that he collected money from her without being an authorized agent. The alleged offense was committed in November, 1903.

CARMEN WILL NOW DECIDE.

United Railroads Give Final Answer to Leaders.

SAN FRANCISCO, April 21.—The final answer of the United Railroad Company to the Carmen's Union was made today at a prolonged conference between President Holland of the corporation and the representatives of the union.

The company stated what it would concede to the men and the union leaders left the conference with the purpose of placing the proposition before the men at a general meeting of the union.

It will then be left to the carmen themselves to determine their future action with regard to their attitude on differences with the corporation.

It is understood that the meeting today was the last conference between the company and the union.

The final propositions made by the company have not been made public.

WANDERING IN THE HILLS.

A man giving the name of Alfred Dennett, about 50 years of age, was found wandering around the Piedmont hills this morning, and taken into custody and is now at the detention ward of the Receiving Hospital with a charge of insanity placed against him.

Dennett believes that at one time he was wealthy and says he was worth \$1,000,000.

He has no evidence of it at the present time.

He says that his home is in Los Angeles, but his talk is of such a character that it is impossible to get what can be depended upon as a correct statement of who he is or where he comes from.

Dennett is said to be the original Dennett of restaurant fame. He started many restaurants.

PRISON BOARD IN SESSION.

BUSINESS OF INTEREST TO STATE IS BEING TRANSACTED.

SAN QUENTIN, April 21.—The State Board of Prison Directors are holding special sessions here today. All the members are present except Wilks. The board convened at 10:30 a. m. for the first time in two months. There is a large volume of business to transact and a night session is probable. The morning session was devoted to routine business and the examination of a new system of identification. The Fertilizer system, now in vogue, will probably be augmented by the Deque system. Frank Dupue was before the board all morning demonstrating the system. The idea is to establish a bureau of identification and use both systems. A large number of applications for parole are on file and some will be granted before the directors adjourn. The afternoon session is executive.

RAINLAND TO THE FRONT.

NASHVILLE, Tenn., April 21.—Cumberland Derby: Rainland won by three lengths. Katie Powers second; Chebogan third. Brannan fell at the half. Rainland was an added starter.

KNIGHTS TEMPLAR IN SESSION.

SAN FRANCISCO, April 21.—The forty-sixth annual convocation of the Grand Commandery, Knights Templars of California, was opened today in the Masonic Temple.

There were present in full uniform representatives from all of the thirty-nine commanderies of the State.

After a preliminary service of worship, the rolls were called and the grand commander in response gave a report of their respective commanderies.

Matters relating to the reception of the grand commander of the United States of America, which is to hold its triennial convocation in this city next September, will occupy a portion of the three days session.

It is expected that Sir George Shearbaugh of Los Angeles, at present the deputy grand commander, will be advanced to be grand commander, to succeed Sir William Durrant of Sacramento, and that Sir John B. De Jarnne, grand generalissimo, will be advanced to deputy grand commander.

WOULD NOT TELL ON THE WOMEN.

SAN FRANCISCO, April 21.—During the Hyde-Diamond examination today, the introduction of anonymous letters claimed to have been received by Diamond, who was on the stand, brought about a clash between the witness and the opposing counsel. The names of women scurrilously alluded to in these letters Diamond refused absolutely to publicly divulge, although he imparted the information privately to the court and Attorney Hevey.

Regarding an interview he had with Senator Pelton, Diamond stated that it took place subsequent to the publication of Hyde's indictment. He had the key of the Senator's advice as to the propriety of presenting Hyde with his bill for services. Senator Pelton's advice was to present it by all means.

Diamond denied the insinuation of Attorney Hevey that he had written letters to himself offering him from \$500 to \$5000 to assist in the prosecution of Hyde and Benson. He also denied that he had tried to obtain "hush" money from Hyde.

Thomas Bell, a brakeman in the employ of the Southern Pacific Company, was arrested this afternoon by Special Police Officer Clarkson on a charge of petty larceny.

Forcing a Race Issue

Illinois has a civil rights law making it a misdemeanor to deny negroes equal rights with whites in restaurants and theaters. Recently two colored men had the proprietors of a Chinese restaurant in Chicago arrested for refusing to serve them. A jury acquitted the defendants. The incident is a trifling one, but it illustrates one of the irritating phases of the race question, for it is an example of how some colored men go out of their way to manufacture sentiment against their race. The Chinese who were arrested keep a restaurant for the purpose of making money. Their patrons are white people who would forsake the place if negroes were served in their company. In refusing to serve the black men, the Chinese were simply protecting their business interests. It was business not race prejudice that prompted them to refuse to cater to colored patrons.

Let us reverse the situation. Suppose, for instance, that colored men were keeping a restaurant patronized exclusively by whites who objected to eating in company with Chinamen, and that Chinamen would insist upon having themselves served there merely to assert a legal right. Chinamen could not do this, by the way, but suppose they did, and thereby forced the colored proprietors to choose between violating the law and injuring their business. Does anyone think the Chinamen would not be promptly shown the door as fellows who were gratuitously making trouble? In catering to the public hotels and restaurants consult not their own prejudices but the sentiments and tastes of their patrons. If they fail to do this, they are unsuccessful as business ventures.

There was no good reason why these colored men should have sought that particular restaurant in order to vindicate their rights under the law. Sensible men go to restaurants to eat, not to assert a legal principle. There are plenty of places in Chicago where colored men can get served with the best that can be had for money. Therefore the attempt to force custom on men who do not want it and who cannot accept it without injury to their business is not in good faith and can only be charged to an aggressive and mischievous spirit. When a self-respecting man is denied service at one place, he goes somewhere else. Instead of desisting to force himself where he is not wanted, he avoids such places.

Some months ago three colored men made the rounds of the cafes of the fashionable hotels in New York demanding to be served with drinks solely for the purpose of obtaining grounds for bringing damage suits under the Civil Rights law. Juries will not give such men verdicts even when the law is technically violated. But the worst feature of such proceedings is that they force the social side of the race issue to the fore in a most irritating fashion. They furnish an excuse to mistreat black men and women who conduct themselves as gentlemen and ladies should, and who would receive more consideration but for the actions of those of their color who force their presence and company upon whites who object to their association.

There are hundreds of restaurants and barber shops in this country kept by colored men who will not serve or shave people of their own color. This does not arise from race prejudice, but from a law of trade. A man in business cannot afford to offend his customers, and if a black man caters to an exclusive white custom, he does so because he is consulting his financial interest. It is not sensible or right to expect him to do otherwise. When colored men make a habit of patronizing only those places in which they are welcome, the sooner will the interdiction against them in places where they are now unwelcome be withdrawn.

The Louisville Courier-Journal says Theodore Roosevelt is the only issue. We thought it was the Booker Washington dinner versus the Democratic record, but let it go at that. Theodore Roosevelt is a first-class issue, none better, as the Democrats will find out to their sorrow. The people love him for the enemies he has made, not meaning to be personal to Colonel Watterston.

West Oakland and School Bonds

If the people of Oakland vote in favor of the bond proposition to be submitted to them by the Board of Education on Saturday it will mean to Oakland the acceptance of a comprehensive plan of improvement of schools, looking to the requirements of the future.

In this matter the people of West Oakland are greatly interested, as in that district is located one of the oldest school buildings in this city, the Prescott School. This building has been in use thirty-five years. It is poorly lighted. Its construction is such as to need extensive annual repairs, and it is otherwise poorly adapted for educational purposes.

The provisions for West Oakland as suggested by the Board of Education should be especially pleasing to the residents of that district, as it means for the use of their children a commodious, fire-proof, well lighted, well heated and well ventilated modern school structure.

The site of the Prescott School is entirely inadequate for the thousand children who attend that school. Provisions for the enlargement by the purchase of all, or nearly all of the balance of the block, are made in the proposed bond scheme, and after this site has been enlarged and the building constructed as proposed, West Oakland will have a school property equal to any west of the Rocky mountains.

Boss Murphy of Tammany Hall must be wondering who is to be buried in that grave he dug for David Bennett Hill. When the Sage of Wolfort's Roost refused to play the star part at the funeral, Murphy billed Senator Pat McCarran of Brooklyn for the role, but McCarran was as obstinate about being buried as Hill. So the grave yawns in its emptiness. Perhaps it will do for Parker.

Don't Fail to Vote Saturday

The friends of the schools should not fail to vote on Saturday. Nothing should be allowed to interfere with his duty. There is no doubt about the bonds carrying if all those who are in favor of them will take the trouble to vote. The only danger of defeat lies in the habit so many well-meaning men have of giving public measures their blessing while neglecting to give them a vote. It is to be hoped that an exception will be made in this case. Let there be a large vote to the end that the spirit of improvement in Oakland, of which so much has been said lately, will speak in no uncertain tone. A big vote means a raising majority for new schoolhouses and children's playgrounds.

Austen Chamberlain finds it a good deal harder to find the money to pay for a war than his sire did to make it. But paying the piper is generally more serious work than dancing to the music.

It is rather inconsistent in men who are lining up conventions to instruct for their candidate to object to the friends of other candidates doing the same thing.

The Russians are positive that the Petropavlovsk was not blown up by a Japanese mine, but they are in doubt whether she was sunk by a vagrant Russian mine, by a Japanese submarine boat or by an internal explosion. This hazy uncertainty must be very encouraging to further naval operations by the Russians.

The Cheap John in Literature

The exclusion of books from the malls on the ground that they are not second-class matter does not imply that books may not be first-class literature, though a large majority of the books turned out from the press nowadays are not literature at all. The book publishers complain about the quality of the reading matter supplied by the daily papers, but it stands favorable comparison with the trash printed in book form. What is called current literature is mainly stuff of little better quality, though more pretentious in form, than the matter published from day to day in the news press. Even a large proportion of the novels of the day are no better written than the ordinary "stories" of daily life written hastily by reporters for the papers. And the methods of the book publishers in advertising and dressing up their wares differ but little from the methods of the sensational newspaper publishers. Freaky bindings, bizarre illustration and eccentric letter press are all brought into play to make showy and attractive a lot of insipid trash that scarcely rises to the dignity of light summer reading. Furthermore, the paper and binding of these tawdry books, despite all their gilt and cheap finery, are as destitute of wearing quality as the literature they contain. It is not inappropriate, however, that small beer should be marketed in fancy bottles, only fit to be broken after once used.

A Queer Ground for Opposition

It is stated that some people in West Oakland are going to vote against the school bonds because of the location of the garbage crematory. They will be both unwise and illogical if they do so. Because they object to the garbage crematory should, not lead them to reject school betterments. Besides, the Board of Education had nothing to do with passing the garbage ordinance nor with locating the crematory. There is no connection between the schools and the garbage question, and voting against the school bonds will not remove the crematory nor repeal the garbage ordinance. Neither will voting against any bond issue for public improvements accomplish such a result. Those who propose to vote against the school bonds on such grounds will simply cut off their noses to spite their faces.

According to the dispatches, Admiral Skrydloff intends to be aggressive. If we remember right, that is what Admiral Makaroff was. They are now singing requiem masses for the repose of his soul while the rabs are making merry among his bones.

A St. Petersburg dispatch says Admiral Skrydloff is "the hero of the hour." So was Makaroff two weeks ago. His fate should admonish his successor to defer his boasting till his return from Port Arthur. Crowning the victor with laurels before the battle is fought is not a wise proceeding.

FISHING TIME.

The ice has melted from the stream. The blue jay is about. From every bank the violets beam. Upon the hungry lily. And gone is every cackling care. Of winter dull and drear. For Spring is buzzing in the air. And fishing time is here.

Pluck forth the lucky willow creel. From out the garret's dust. And furnish up the rod and reel. And clean away the rust. The flies and forlorned prepare. And all the anglers gear. For Spring is buzzing in the air. And fishing time is here.

What reckons we of bonds or stocks. Or of the office stool. With brooklets dawning over rocks. To form the angler's pool. Or what care we for bull or bear. Or how the markets veer. When Spring is buzzing in the air. And fishing time is here?—Houston Chronicle.

Admiral Makaroff, who sleeps in his clothes to be ready for emergencies, has a better idea of "preparedness" than had his unfortunate predecessor.—New York World.

Hints for the Ladies.

A baby that cries with its mouth wide open is the design of a china match safe, the matches to be put in the wide-open mouth.

In Dresden china are shown some delightful pieces of old-fashioned fruit baskets in openwork, ornamented with flower and fruit designs.

For making pillows and other handkerchief fancywork are some charming handkerchiefs with butterfly designs that are selling at 9 cents apiece.

Good designs in bread baskets, vases and other odd bits of useful and decorative china are shown in the Finland pottery, which is quaint and pleasing.

Wide Hamburg embroidery for corset covers with the lots for the ribbons along the top is to be purchased as low as 25 cents a yard. Finer pieces cost more.

A Christy picture in passeportout binding is offered for \$1 and beside it are some delightful little Holland pictures in color, framed in Flemish oak, for the same price.

On a carved wood tray is a punch set of delicate green glass, the punch bowl in a sort of egg shape with a cover and a gold-handled punch ladle. There are six punch glasses of the clear green glass.

For 12½ cents a yard there are selling remnants of mouseline de sole in red, blue, pink, yellow and white. Some of the pieces contain material enough for a dress, while many are only sufficient for a waist.

There is a wonderful attractiveness in the reproduction of old English china to be seen in the china departments. Not only are the decorations quaint and unusual but the shapes of the various pieces are odd and pleasing.

Lace-edged handkerchiefs are somewhat passe these days, the handsome ones with the embroidery edges having taken their place. One handsome all-white embroidered one shows a scalloped edge and a bow-knot design and cost \$3.00.

One of the prettiest summer dressing jackets shown a made of thin white dotted Swiss and is tucked in fine hand-run tucks about the neck, which is square. From there it hangs full to below the waist. Fine valen-tines lace beading and lace finish the square neck and the bottom of the full sleeves, several rows of blue wash ribbon being run in the beading. For this simple little jacket the shops ask \$5.00.

To be fashionable evening wraps must be light, not in weight, but in color. Almost every material, from lace to "marabout ropes," will serve for their making, but they must never be black or red or brown, and even dark gray is a little under the ban.

The new skirts are all full, and those who are tall and slim can indulge a fashionable predilection for short bands of shirring on the hips. These are not extended to the front and back breadths of the skirt. Where embel-point suggests that shirring on the hips is not desirable, these spaces are trimmed with groups of hard tucks. Horizontal hand tucks are never than the groups of vertical tucks on the hips, and so are now used on skirts of summer gowns when shirring would be a mistake.

In plain white goods there is little change from last year aside from the fact that thin airy blings will have the place of honor. Plain and embroidered linens from very sheer to very coarse weaves will be used for gowns and shirt-waist suits. There are several varieties of cotton etamines and mercerized materials of many descriptions. Without hesitation one may buy duponts, French and Persian lawns, wash chiffons, silk muslin and English lawnsook; while embroidered Swisses in various-sized dots, in stripes or in local designs, are better style than for many years past.

Although brown is a warm shade for hot weather, it promises to be, as it has been this winter, one of the fashionable spring color, sharing popularity with ecru. Some shades of brown have a particular cachet when worn by a woman whose hair and eye coloring tone in with that of her frock. In taffeta the brown frock is very smart when trimmed with bands of velvet ribbon and a touch of old world tinted lace at throat and wrists. A taffeta dress in la mode's latest colors—ecru—has bands of modore velvet as a relieving note. This velvet on the waist is used bric-a-brac fashion and finishes at the bust line with tasseled ornaments or ecru chills. The chemise, collar and sleeve ruffles are made of cream-colored lace.

A REPUTATION.

HOW IT WAS MADE AND RETAINED IN OAKLAND.

A good reputation is not easily earned, and it is only by hard consistent work among our citizens that Doan's Kidney Pills won their way to the proud distinction attained in this locality. The public endorsement of scores of Oakland residents has rendered invaluable service to the community. Read what this citizen says:

Walter J. Plummer of 1828 Versailles avenue, Alameda, Jeweler in the employ of Geo. R. Moss & Co., says: "If the contraction of a cold which settled across the small of my back was not the primary cause of the aching in that part of my anatomy I knew positively that when I caught a cold aggravation of the trouble was apparent. I have persistently and consistently tried medicines when these attacks were at their height but I met with very indifferent success. From reading an advertisement about Doan's Kidney Pills in a newspaper I was induced to go to a drug store for a box. Relief followed the treatment in a few days and since I stopped using the pills there has not been a sign of a recurrence."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name, Doan's, and take no substitute.

THE PEACE OF SPRING.

He maketh me to lie down in green pastures; he leadeth me beside the still waters.—Psalm xxiii, 2.

The quiet of the pasture land! There all the grass is green and sweet. And, whispering, it understands The gentle pressure of our feet; There dandelions thickly spread In wondrous arabesques of gold As though the stars from overhead Upon earth's bosom had been rolled.

The violets laugh at the sky— An echo of the dreaming blue; The voiceless breezes wander by To thread the blossom paths anew; The search of the heart and head seem all a tip-toe in the air. Each wing is noiseless in its beats As through the soundless day they fare.

The wild rose in its cloister nook Is shielding yet its summer blush; The treacherous leaves the lazy brook Sway softly in the morning's hush; The scattered clouds of white go by— Like sunken sails far out at sea— The vagaries that journey life To whatso'er their haven be.

The quiet of the pasture lands! Where newborn flowers, leaf and vine Seem to spring's cup bearing hands That offer us her amber wine; When flimsy veils of mist unroll Whose light the heart and head we long— There, in a chord that thrills the soul, The very silence sings a song!—The Liberator in St. Louis Globe-Democrat.

How to Support Skirts Properly

This is being demonstrated with the "Priscilla" Waist and Skirt Supporter, keeps the skirt up, the waist down—and does both perfectly. In notion aisle.

In the Bright, New Summer Time

which is rapidly approaching—May day very little more than a week off—you will see all manner of new ideas in things for women and children. Fresh designs in hats, original patterns, hundreds of them; in washable dress goods, shirt waist suits and shirt waists, novelties in neckwear; added stylishness in the tailored garments will greet you everywhere. There will be nothing to remind you of the good old Summer time, nor do you wish that there should. You, too, will want new, fresh, bright things, and the bigger Lace House, with its flood of light and its ample room, is the ideal place to gratify your taste.

But be among the first in the garden—don't let your competitors in the search for novelties, get away with the choicest blooms.

Three Specials in Walking Skirts

These skirts are designed to wear with shirt waists—the combination being a most popular one for Spring and Summer wear. All hang well and just clear the sidewalk.

One lot consists of about fifty new skirts—some mixtures, some plain materials; values are \$5.00 and \$6.50 Special at \$4.00

Another lot shows several patterns of walking skirts in light Scotch tweeds, stripes and plain fabrics; regular \$6.00 value Special at \$5.00

A third lot contains about 75 walking skirts—not one but what is made of the latest weaves; regular prices of these skirts are \$7.25 and \$7.50 Special at \$6.25

The Lace House Waist Display

No longer cramped for room, but in a spacious, sunlit section the Shirt Waist display is a center of daily interest as it deserves to be.

The vogue, as the season advances tends more strongly than ever toward the silk Shirt Waists in black and white. They lend themselves with so much dignity to produce a dainty effect that their popularity is based on absolute merit.

Several pretty styles beginning in price at \$2.50 more delicate creations up to . . . \$9.95

Colored Shirt Waists

All the prettier light shades appear in the new shirt waists. Some lines are in solid colors, but the big majority have fancy stripes and figures. The details show many new ideas in collar and sleeves, and after an inspection of quality and style the price tags seem to carry unusually modest figures. Prices from 50c and up to \$3.75.

AT \$1.25—Swell waists of fancy madras with mercerized figures slightly raised and carrying a real silk effect; wide tucking, new stole collar; several styles at this price \$1.25

White Waists

All the finer white goods—Oxfords, lawns, organdies, swisses—are used in the new, white waists and for ornamentation, the new patterns in laces, embroideries and medallions have been freely used. The white waists begin in price at 65c and ascend to \$4.95

One of the most elaborate waists of the season is a beautiful lace waist made of an exquisite quality of white net; round lace yoke with deep, lace-trimmed bertha effect; wide sleeves. Price . . . \$11.50

COME AND SEE HOW IT'S DONE

TO EXTERMINATE TICKET SCALPERS.

CHICAGO, April 21.—The commercial interests of Chicago have completed a union with the railway passenger associations in a war of extermination against the "ticket scalpers" whose business in this city is sufficient to warrant an outlay of nearly \$500,000 annually in office rent alone.

After a month of conferences between representatives of the National Association of Merchants and members of the Merchants and Travelers' Association in Chicago and the representatives of the passenger agents, the crusade has reached the point where counsel has been engaged to prosecute

the fight, which will include seeking in both federal and State courts of injunctions against the ticket brokers, restraining them from dealing in railway tickets issued under a contract with the purchaser which makes them non-transferable. The immediate purpose of the movement is to prevent the "scalping" out of low rate tickets from Northern and Eastern points to the St. Louis exposition but, following that, an attempt will be made to conduct such a crusade that the scalpers' business will be crushed in Chicago.

GOVERNOR BRADY ARRIVES.

PORTLAND, Or., April 21.—Governor Brady of Alaska reached Portland yesterday from Sitka. The purpose of his coming at this time is to confer with the Lewis and Clark management concerning the Alaskan exhibit in 1905. The Governor declares that the exhibit which his Territory will make here next year will exceed by far that at St. Louis, which is itself the most elaborate ever attempted by the Alaska people.

TO REGULATE THE STEEL TRADE.

REPRESENTATIVES MEET IN LONDON AND CONFER REGARDING PRICES.

NEW YORK, April 21.—Representatives of the great steel manufacturers of the United States, Great Britain, Germany, Austria and Belgium are reported to be in secret conference in London with a view to arranging for the prevention of dumping and the fixing of uniform export prices. The project originated with the German syndicate. It is understood the French manufacturers are sympathetic but are not represented in the conference because their exports are small. Negotiations were taken up about three months ago by the leading interests, originally with the idea of regulating prices in neutral markets, but the British manufacturers insisted that England be included because German ships carry to that market 1,000,000 tons of steel product yearly. This resulted in the calling of the present conference for a discussion of the whole question of export prices in all markets, including those of plates, rails, structural steel and semi-products.

The first difficulty was the non-existence of a combination of British manufacturers who include twelve groups. There is a fair prospect that this will be overcome. The second obstacle is the fact that several English manufacturers are also great consumers who have profited by the dumping of foreign steel bills in the English market. The third is the problem of a control or check on operations. This is under consideration.

ALAMEDA BOOSTERS.

ALAMEDA, April 21.—Boosters from all sections of Alameda county will attend the big promotion rally to be held under the management of the West End Improvement Association, at the West End street "wigwam" tonight. President C. R. Smith of the association will be the chairman of the meeting and among the speakers will be Mayor Warren G. Keyes of Oakland; Thomas Rickard, president of the Town Trustees of Berkeley; Rufus J. Fenner, secretary of the California Promotion Committee; Senator G. R. Luken; R. A. Daguerre, Rev. William Norman Guthrie, Superintendent of Schools Fred R. Moore and representatives from the Adelphi Club of this city and the Elbel Club of Oakland.

Prior to the speaking there will be a short musical and literary program. In anticipation of a large attendance the seating capacity of the West End street wigwam has been increased and the interior of the building beautifully decorated for the occasion.

CHARGED WITH FRAUD.

CHICAGO, April 21.—E. L. Hammer and S. J. Warren, alias Pearson, charged with fraudulent soliciting funds for the Republica Marching Club, have been arrested and looked up at Central Station. It is said they secured nearly \$5,000 and include in their list of alleged victims some prominent business men in Chicago. Letters in Warren's possession show him to be a son of wealthy parents living in St. Heliers, Isle of Jersey, in the English channel. Since coming to Chicago he has gone by the name of Pearson.

REALTY ASSOCIATION ELECTS NEW OFFICERS.

BERKELEY, April 21.—The Berkeley Real Estate Association has elected the following officers for the ensuing year: President, Francis Ferrier; vice-president, W. C. Moran; secretary, Robert Baird; treasurer, M. P. W. (Jesse); executive committee—W. P. Wolsley, W. J. Mortimer and R. A. Barry.

IDENTIFY A DEAD HORSE.

ANIMAL STOLEN TWO YEARS
AGO AT STOCKTON FOUND
AT HAYWARDS.

Sheriff Walter F. Sibley of San Joaquin County arrived in Haywards today in search of a valuable horse stolen in Stockton nearly two years ago, just a week too late to recover the animal, which had died a few days previously. It was only upon the conviction and sentencing of a desperate criminal, who gave the name of Williams, at Stockton yesterday, that a clue was given as to where the horse was. Williams was given an eighteen-year sentence at Folsom and he then told of having disposed of the

horse to a man near Hayward.

This morning Sheriff Sibley, in company with Deputy Sheriff Simons, visited the ranch of Peter Nelson in Castro Valley and saw the carcass of the animal, which could still be identified. Nelson praised the veterinarian and had the satisfaction of looking at it because he himself employed a veterinary surgeon and did everything in his power to save the animal's life.

By the description given him of Williams, Nelson was satisfied that he was going to capture the outlaw who had killed the horse. A peculiar saddle that Nelson remembered Williams having had the identification complete.

The owner of the horse, John E. Fox, however, said the people to whom the horse recently belonged are destined not to recognize the animal and was valued at several hundred dollars.

THEY WERE MARRIED ON THE QUAIL.

BERKELEY, April 21.—College social circles were surprised today to learn that Miss Sadie Snell, a popular and pretty member of the sophomore class of the University of California, has for the past four months been the bride of E. O. Adams, a prominent rancher of Woodland.

They were married secretly in Oakland, and after the ceremony Mrs. Adams returned to college to continue her studies, her friends never once suspecting the existence of the pretty litaney in which she was taking a part.

They had denied Ireland home rule, had refused to accept the £100,000,000 budget, which would impose an additional burden of \$2,500,000 yearly on Ireland. The question of home rule was again becoming a decided factor in English elections and when the dissolution of Parliament came it would be found to be the subject of great contest. Government should rule the empire.

The convention passed a resolution in favor of home rule and expressing con-

NEW HOTEL. ON MAN. DRAWING NEAR. ANNUAL FARCE.

Large Structure Will Be Erected By Professors Adjacent to the State University Grounds.

BERKELEY, April 21.—Berkeley is to have a \$50,000 hotel. Plans for the structure, which is to be erected at Ridge road and Le Roy avenue by a stock company of University professors, have already been drawn by John Galen Howard, the supervising architect of the University of California.

SPRING BUILDING RUSHING.

SUBSTANTIAL BUSINESS BLOCKS AND HOMES BEING ERECTED IN BERKELEY.

BERKELEY, April 21.—Now that the prospect of having clear weather has come forward at a very rapid rate. In all parts of town the sound of the carpenter's hammer and the mason's trowel can be heard, showing that the times are very prosperous for the contractor and builder. In fact, so great is the demand upon the builders that there is a scarcity of men and material and many jobs have to await their turn.

The greatest progress in the building up of the city is in the business section. Two stories of the steel framework for the First National Bank Building are already up and the steel has arrived for two more stories. The stone is expected to arrive very shortly and then the work of covering the steel skeleton will commence. After a long period of delay owing to the bad weather, a start is at last to be made on the Carnegie Library building under very favorable conditions. Stone for four feet of the first floor has been received and the first tier of stone has already been laid on the front of the building. The building, which will be shipped very soon. Kildor & McCullough are the contractors.

Now that the Commercial School building has been moved around on Alameda way, the work of excavating for the

The new hotel will contain 200 rooms with a bath and three stories and will be 270 by 125 feet in dimensions. The walls will be built of brick and fireproof materials will be used as far as possible in interior construction. Bids for the concrete foundation have already been secured.

"Clyde Court" is to be the appellation given the new hotel.

Foundation of the story and a half structure to be erected by C. E. Thomas for business purposes has begun. Some of the foundation stone has already arrived and as soon as the ground is cleared work on the foundation will be commenced. Robert Greig is the contractor. Plans are now being drawn for the four-story brick building to be erected on the site of the Cook nursery. The Wranger block on Shattuck avenue, opposite the library, is rapidly nearing completion. All the outside work has been done and the work of fitting up the stores and finishing the upper floors is now being completed. Some of the rooms are already finished. The large corner store will be occupied by a drygoods firm. The contractor is Robert Greig.

Another new business block is to be erected in the center of town. G. W. Crocker has let the contract to Ben Pearson and Nels Olsen for the construction of a two-story frame building on the west side of Shattuck avenue, near Berkeley way. The building is to contain three stories and four flats, all of the most modern construction. Pearson and Olsen are to do the construction work, the plumbing and painting. B. E. Underwood has the contract for the plumbing, gas fitting, dining and sewer work while G. W. Crocker is to do the painting. The total cost for the building is to be \$3077. The Regent class of the State University has let the contract to the American Bridge Company for all the work necessary to complete the structural steel and truss work for California Hall. John Galen Howard is the architect. All the steel work must be completed by the last of September. The total cost is to be \$21,250.

SENIORS WILL CONDUCT THEIR LAST SINGING.

BERKELEY, April 21.—The last regular senior singing of the term will be on North Hall steps this evening. Aside from the usual program the men will be addressed by A. C. Skafte on the "Class Organization of the Class of 1904." The class has the best permanent organization, and the seniors will be made acquainted with the plans by which this organization was brought about.

REPORT ON ANTHROPOLOGY SHOWS CONSIDERABLE RESEARCH HAS BEEN DONE.

BERKELEY, April 21.—The quarterly report of the department of Anthropology for the first quarter of 1904, which has just been made to President Wheeler by Dr. A. L. Kroeber, secretary of the department, shows that unusual activities have characterized the work in anthropology during the last three months. Twelve accessions to the Museum have been made at this time, including collections from five different parts of California, from the Southwest, the Mississippi Valley, Arizona, Japan, Siberia and South America. Great success has marked the prosecution of anthropological research along the various lines undertaken by the department.

As the result of a recent trip of Mr. Pliny E. Goddard to the East and the establishment of closer relations between himself and Dr. Washington Matthews, who is the foremost living authority on the great Athabaskan family of Indians, Mr. Goddard has been able to take the first active step by a trip to the Navajo Indians in completing and continuing Dr. Matthews' life work.

By the renewal of Mrs. William H. Crocker of her gift of last year, Mrs. Zella Nuttall is continuing her valuable studies in Mexico. In addition to the work in the field the work in the museum during the past three months has gone on steadily under the direction of Professor Putnam. A department library has been organized and the work of identification and cataloging of anthropological collections has made great progress. All the ethnological and part of the archaeological collections from California have been carefully cataloged piece by piece and the same is being done with the Alaskan collections and those formed in Greece by Dr. Emerson.

UNIVERSITY LAWYERS HOLD ANNUAL BANQUET.

BERKELEY, April 21.—About twenty-five faculty members and law students attended the John Marshall Law Club banquet in San Francisco Tuesday night. In his concluding remarks, its toastmaster, Professor William C. Jones, predicted an unusually strong law department for next year. Mr. Eke will return from Harvard and courses in federal practice, admiralty and insurance will be added.

Students Are Ready for the Annual Forensic Struggle Between Berkeley and Stanford

BERKELEY, April 21.—One of the most interesting debates of the collegiate to the general public will occur next Saturday evening in San Francisco when the intercollegiate debate between Stanford and California universities will be held in the Alhambra Theatre. Forensic contests always prove attractive and the interest this year is keener on account of the rivalry between the two colleges. Both sides have good men and the outcome is doubtful.

The debaters of the State University are now spending three hours a day on preparation for the coming debate. The men of the team realize that they are to manufacture war is in competition with a team of veteran talkers, two of whom are really inveterate, so they are in daily training.

In this debate Stanford is to have Frank Roth and H. N. Lewis, both heroes of one intercollegiate and two Carnot debates, and Stanford, a member of the last Carnot team. Against this aggregation of veteran men California

is to send Max Thelen, who has won two intercollegiate debates, one Carnot and one Bonhomme discussion; Joseph P. Lucey, winner of the last Carnot medal, and Robert L. McWilliams, a youth who has never before got anything better than alternate on the Carnot team. From the point of view of experienced men Stanford ought to win out.

Stanford has another advantage from the point of view of the question. Her team is to present the affirmative on a question that is comparatively easy to defend. The question is "Resolved, that in cities of the United States of more than 40,000 inhabitants a system of municipal government concentrating the executive and administrative powers in the hands of the Mayor should be adopted."

The debate is to be judged by three of the leading jurists of the State—United States Circuit Judge Morrow, State Supreme Justice Lucien Shaw and Supreme Court Commissioner Cooper. President David Starr Jordan will preside.

TO FIGHT FUNGUS ON TREES.

MRS. PHEBE HEART CALLS A BOTANIST TO HER COUNTRY HOME.

BERKELEY, April 21.—The fungi which are so deadly to the California live oaks have begun to make "incursions" upon the trees of Mrs. Hearst's beautiful home at Pleasanton. To stay if possible, ravages of this destructive pest, and save the lives of her trees, Mrs. Hearst has called upon Professor Jepson of the

Botany Department to study into the nature of the case and see what may be done to arrest further decay.

This species of fungi burrow along in the tissues of the wood, sometimes working the whole length of the tree until they have undermined the very heart and fiber and the tree topples over. This parasite has been successfully treated in case of the University oaks with applications of cement and tar.

STUDENTS DEBATE NEWSPAPER ETHICS.

BERKELEY, April 21.—At the Senate debate last night the subject under discussion was: "Resolved, That a student reporter in the University of California is justified in publishing any facts which may be of interest to the general public."

The affirmative won, upheld by H. A. Stout and Sam Evans. The negative

was defended by J. G. Whitelaw and H. H. Kelley. During the evening officers were also elected to fill the next term. They were as follows: Carl Baker, president; E. D. White, vice-president; Sam Evans, secretary; J. E. Shuman, treasurer. The executive committee members chosen were H. Miller and H. A. Stout.

Of the masqueraded actors, "Carleton Curtis" was the prettiest girl in the show. Her trail had come to his aesthetic standard there would have been no need of a tatter detachment from the Co-educational Dramatic Society.

Oliver Orlick had the difficult part of a jealous wife, and carried it off with considerable force. Jack Geary impersonated a farcical music teacher to the appropriate amusement of the audience. The other roles were humorously sustained and added to the whole enjoyment.

Two Japanese officers caught. TIEN TSIN, April 21.—The two Japanese officers disguised as lamas with 360 pounds of gun cotton in their possession by the Russian authorities at Harbin and charged with attempting to destroy the Nomon bridge, have been conveyed to Port Arthur for examination as to how they procured Chinese passports. They will afterwards be dealt with according to martial law.

PROGRAM FOR COMMENCEMENT.

BERKELEY, April 21.—The program for commencement week will be out within the next few days. It will include such features as the class day exercises, baccalaureate sermon, Phi

The play presented was a clever series of dramatic and romantic complications and was well suited to the talent of the actors. Milton H. Schwartz, 01, coached the players and directed the performance with much skill. The farce went with a snap and vigor, the climax of the several acts earning many curtain calls. Skull and Keys Society, even deprived of the picturesque collaboration of Mask and Dagger, are to be congratulated upon the entire success of its enjoyable play. And after all the incongruity of the love-making episodes added generously to stirring the laughter through the Macdonough.

The cast consisted of: Alfred Hastings, Pettibone's nephew—Melvin G. Jeffries. Thomas H. Gentry, a protégé of Alfred's—Carlton H. Parker. Theodore Bender, Esq., a retired produce dealer—Scott Hendricks. Josephine Bender, his wife—Oliver S. Orlick Jr. Evangeline Bender, their daughter—Annie S. Orlick. Egbert Pettibone, a peculiarly jealous man—James A. Force. Rosabelle Pettibone, his second wife—John S. Edwards. Emily Pettibone, Pettibone's daughter—Carleton A. Curtis. Christopher Dahney, a broken-down music teacher—John V. Geary. Fifi Orlick, from the Opera Comique—Emilie R. Abadie. Augustus McSmith, a friend of Pettibone's youth—Harry S. Minor. Victor Smythe, in love with Emily Pettibone—Roy J. Somers.

Beta Kappa meeting, graduating dinner as well as a detailed program for commencement. The commencement exercises will be held in the Hearst Greek Theater and will begin at 10:30 a. m. The Alumni Council will probably have its luncheon in Berkeley on that day.

TWO JAPANESE OFFICERS CAUGHT.

FRUITVALE CLUBS MEET.

COMMITTEE APPOINTED TO CONFERENCE WITH OAKLAND TRANSIT CO.

FRUITVALE, April 21.—A joint meeting of the Laurel Grove Improvement Club and the Upper Fruitvale Improvement Club was held Tuesday evening to form a plan by which to improve the beautification of Fruitvale. The principal business before the meeting was in regard to the proposed street car line on High street. The citizens of Laurel Grove are anxious to have the line run from the Hermitage, where the terminus will be to Laurel Grove.

A committee, of which W. S. Dunlevy is chairman, was appointed to wait on the Oakland Transit Company to see if the company could be prevailed upon to tap the Laurel Grove station.

The proposed new road is a branch of the Oakland, San Leandro and Hayward Electric Railroad. The road will start at High street and East Fourteenth street and will run north on High street to the Hermitage. A second meeting of the improvement clubs will be called in about two weeks when a report of the committee will be received.

SAN LEANDRO MAN LIES IN ARIZONA WHERE HE HAD GONE FOR HEALTH.

SAN LEANDRO, April 21.—Wednesday morning the sad news of the death of Manuel Williams in Arizona was received here. The deceased was one of the most energetic and promising young men of San Leandro. He was a member of the Oakland Express Company running between Oakland and Hayward. He was born and raised in the neighborhood of San Leandro.

Although Mr. Williams had gone to Arizona on account of his health, the direct cause of his sudden death is attributed to the death of his fiancée last week. Miss Hattie Plesner of Elmhurst.

The young people had a momentary engagement and were to be married in the late fall. Owing to a slight tuberculosis trouble, Mr. Williams decided to make a trip into the southern country before his marriage.

During his absence Miss Hattie Plesner was taken suddenly ill with pneumonia and died. Just before the death of Miss Plesner a letter was received by Mr. Williams' parents stating that his health was much improved and that he expected to return home shortly.

The news of the death of his intended bride was telegraphed him after the receipt of his letter last week and from that time his condition was much changed until death finally called him.

The deceased was 33 years old. Until his condition was much changed until death finally called him.

LLOYD WEBSTER RELEASED.

ALLOWED TO GO PENDING RESULT OF KNIFE WOUND MADE IN PLAY.

EMERYVILLE, April 21.—Floyd Webster, a young man employed at the race track was released today on his own recognizance by Judge Quinn.

Webster was arrested Sunday for inflicting a knife wound on one Leslie Stevens also employed by a horseman. The affair seems to have been an accident as far as can be learned and the injured youth would not swear out a warrant charging Webster with assault with a dangerous weapon he was allowed to go pending the result of the wounds.

The trouble occurred on Hollis street when the two were "fooling" as they called it and in his gentlemanly Webster threw an open knife at Stevens which located in his leg. As matters look there was no quarrel and the lad will probably recover.

GOLDEN GATE SOON TO HAVE A NEW PLACE OF DETENTION.

GOLDEN GATE, April 21.—This town is rejoicing in the prospect of having a station for detention of the unruly and disturbers of the peace and such a place is being provided for in the erection of a new little building on Fifty-ninth street opposite the fire station.

The building is a one-story frame structure, ten feet wide and twenty feet deep. It will have a gable roof. In the front facing Fifty-ninth street will be a wide window surmounted by a transom. There will be no windows in the side or rear.

In the rear part of the single room will be a metal cage in which to confine prisoners.

The work is going on rapidly and the building will be completed in about ten days.

There is a rumor that a popular policeman will have the new place succeeding Officer Hall who recently resigned.

A. Anderson who died Sunday night was buried yesterday, the funeral services being held from McManus' undertaking parlors.

READY TO GIVE FRENCH LECTURES.

BERKELEY, April 21.—On tomorrow afternoon at 4 o'clock in the Students' Observatory Building Mr. Robert Dupouey will deliver the first of two lectures in French. Mr. Dupouey is the Alliance Française lecturer for 1904. He holds a scholarship of the French Ministry of Public Instruction at Harvard University for the past year.

The second lecture will be given on Monday at 4 o'clock, also in the Students' Observatory. Mr. Dupouey's topics will be "Le piano file dans le Roman Contemporain" and "Le Theatre Social." These lectures, like several other series of lectures by well known French literati, are provided through the generosity of J. H. Hyde, national president of the Federation of the Alliance Française. The public will be welcome to both of these lectures.

BLIND PUPILS TO GIVE CONCERT.

BERKELEY, April 21.—The blind pupils of the institution for the Deaf, Dumb and Blind will give a grand concert next Friday evening at 8 o'clock in the assembly hall of the institution. The concert will be given under the management of J. Faust Donahue. The pupils will be assisted by Miss Mast, although eight of the blind to them, some of the pupils are musical geniuses and execute difficult compositions on the piano with surprising ease.

The program to be rendered is as follows:
Part I—"Anvil Chorus" from Il Trovatore (Verdi); piano solo, "Spinning Song" (Littolf), Charles Caceres; organ solo, "Pilgrims' Chorus" (Wagner), Edna; Hazel Piper; vocal solo, "Little Blue Pigeon" (Fairbank), Luara Barbee; piano solo (a), "Consolation" (b) "Spring Song" (Mendelssohn), Berna Haigh; due for organ and organ, "Lamentation-Oswow" (Rubenstein-Fleischer), Charles Caceres and Eben Gay.

BOOSTERS ASSEMBLE TO HELP BONDS ALONG.

Reasons Why Oakland Should Have More and Better Schools—Plans of the School Board.

There was a meeting of citizens in the common school hall attached to Chabot Observatory last night under the auspices of the Boosters' Club for the purpose of urging the support of the \$500,000 school bonds at the election Saturday next.

There were present a number of leading citizens who have always taken an interest in the advancement of the commercial and educational interests of this city.

PRESIDENT HOGAN.

The meeting was called to order by Hugh Hogan, president of the Boosters' Club who stated in a simple but cogent manner, the purpose of the meeting.

Walter Fawcett acted as secretary. SUPT. MCCLYMONDS.

Chairman Hogan introduced as the

first speaker, Superintendent of Schools J. C. McClymonds, who was received with cheers.

The Board of Education, he said had submitted to the voters a bond proposition which had been under consideration for five or six years.

There was not a dissenting voice among the Board of Education as to the feasibility and advisability of the proposition. In round figures, the bonds sought would amount to \$500,000.

There had not been a bonded indebtedness incurred in Oakland in the past twelve years.

All the money that could be otherwise raised or spared by the Board had been expended in erecting temporary structures for school purposes. There were forty-five rooms in which classes were taught which were never intended

for that purpose but the Board of Education could not do any better. The only way to house the scholars was to build schools. If the Board should attempt to build schools out of direct taxation, only the flimsiest kind of structures could be secured.

If school sites should be bought out of direct taxation, they would only build for the present. The Board of Education wanted to build for the future.

Oakland today had an opportunity to buy school sites ample enough for time to come. The proposed buildings would be modern school structures which would be a credit to this city.

The Board had been criticized for intending to pull down buildings which presumably might be retained for a few years longer. Yet, if an eye expert should go into the rooms, he would condemn everyone of them. It was but wisdom to supplant these buildings with permanent structures. The rooms were overcrowded. Many of them were not suitable places in which to house children. The number of pupils in the schools were increasing at the rate of 500 per year. It was necessary therefore, to provide from ten to twelve new classrooms every year and at the same time, keep in repair the rooms already in use. If adequate school facilities were to be supplied for the future, and the present accommodations were to be maintained, it was absolutely necessary to get money in some other way than through the annual taxes. Bonds therefore, would have to be issued.

The bonding of the school district was, therefore, a necessity. Land could be bought cheaply now which would af-

ford adequate play grounds for the children. Play ground for the young was necessary. If a teacher were asked as to what hour of the school day contributed most to the mental or physical development of the child, that teacher would answer that it was the recess hour. Play was natural with children and play grounds, therefore, should be provided.

The direct cost to the tax payer of the bonds, Mr. McClymonds said would not be great.

The first year, under the bond tax, a property owner whose property was worth \$1000 would pay \$1.08. On the twentieth year he would pay only 52 cents. On the fortieth year he would pay only 26 cents. The total tax on such a property owner would be \$24.22, or if paid at once, the amount would be simply \$17.

A. H. ELLIOT.

The next speaker was Councilman A. H. Elliot. Mr. Elliot told of the bond discussion between the Council and the Board of Education, which resulted in the latter organization standing on its own ground and issuing the proposed call for the forthcoming bond election.

As a citizen, he had sufficient confidence to say that if the proposed plan was the best the Board of Education had to offer, he was ready to vote for that plan Saturday next. The people would find the plan defensible in every way.

It was not tearing down frame buildings but proposed the erection of permanent educational structures which would be a credit to the city.

He had learned that here were schools here which contained 100 children when there should have been in them not more than 600, and, if a fire should occur in them, the dreadful holocaust of Chicago

was not only possible but even plausible.

Never in Oakland were there so many buildings going up as there were at the present time. If public improvements were to be carried on, on the same scale, the people should see that the school bonds should carry next Saturday.

What they wanted was patriotism to sweep through the community and vote money for these schools. There could be no more ennobling sacrifice than that of the expending of money for the erection of schools in which their children and their children's children should be educated.

The scheme being practical and not extravagant, the people should go to the polls and vote to place confidence in the Board of Education, men who were giving their time and service gratis and who had submitted the proposition.

The time of Slurianiism had passed. All they wanted to know was that the money was to be expended for educational purposes, and in this case, and in the case of the general bond election, all that they should want to know was whether it would be for the betterment and the advancement of the Greater Oakland.

RESOLUTIONS.

The following, offered by Walter Fawcett, were unanimously adopted:

"Whereas, The Board of Education has called a school district bond election to be held Saturday, April 23rd; and

"Whereas, It is proposed to bond the school district for \$500,000 for the purpose of providing new school facilities of a permanent nature, and provide for future needs; and

"Whereas, As an organization, we are in favor of the proposed bond issue; therefore, be it

Resolved, That the Oakland Boosters do hereby endorse the plan of the Board of Education; and be it further

Resolved, That all members of the Oakland Boosters be, and they are, hereby urged to "boost" for school bonds at every opportunity."

Adjourned.

FEDERATION IS FORMED.

OFFICERS CHOSEN TO SERVE
FOR THE ENSUING
SIX MONTHS.

The Progress Federation met at the rooms of the Board of Trade, 222 Twelfth street, last evening. The Council Committee reported that members of the Council had been interviewed and the general opinion of the Council was that the general bond issue could not be presented to the citizens of Oakland before September, which falls in with the desires of this Federation, inasmuch as it is deemed inadvisable to present the bond issue to voters until after the vacation season.

The continuing committee presented a report, and after other nominations had been made the following officers were elected for the term of six months: President, Edwin Starnes; vice-president, Wilbur Walker; secretary, Dr. E. R. Tait; assistant secretary, Albert V. Fawcett; treasurer, J. C. Bullock.

The Federation resolved to request the City Council that the sites and boundaries of the various parks and boulevards in the bond estimates be marked by flags at suitable intervals to inform the public of the locations.

By unanimous vote the Federation approved the plan to be voted for next Saturday and the members pledged themselves to systematically canvass the respective districts in furtherance of this object.

The Progress Federation will meet again on Thursday evening, May 5, at the rooms of the Board of Trade, which will be in the Masonic Temple at Twelfth and Washington streets.

The following organizations were represented at the meeting: The Board of Trade; The Merchants' Exchange; The Library Trustees; The Tenth Avenue Improvement Club; Independence Square Improvement Club; Picayune District Improvement Club; Real Estate Dealers' Association; Letter Carriers' Association; Millinery Union; Oakland Grange; Patrons of Husbandry; Electrical Workers' Union; German Gardeners' Club; Athletes Club; Woodmen of the World; Oak Leaf Lodge, No. 55, A. O. U. W.; Pacific Lodge, No. 7, A. O. U. W.; Tenth Avenue Degree of Honor; Pythian Hall Association.

STUDENTS WILL PRESENT A FARCE.

The M. Tau Delta, the dramatic club composed of students of the Polytechnic Business College, have the farce which they will present Friday evening well in hand. This is to be a benefit to the Athletic Association of the school.

The farce is entitled, "A Crazy Idea" and comprises a plot which has attended the rehearsals, predicted that this will be the greatest success ever achieved by this popular club.

The strong cast secured has made the dramatic success of the farce a certainty. Messrs. Richard Gibson, George Fitch, L. C. Drappo, Ralph Totten, Ray Parich, Edgar Norman, Walter Selby and R. S. Wightman all have different roles which they act out to perfection. The young ladies of the cast, Misses Edna and Rae Fowler, Gail and Emma Appleford, Ethel Walton, Lillian Martin and Catherine Covert also deserve special notice. Several of these young ladies have had considerable experience along dramatic lines and all do exceptionally fine work.

The plot of the piece is worked out in a very clever manner and is as follows: Mr. Tom Blaine and his colored servant decide to rent out the rooms of the house of which they have been left in charge. After having all sorts of trouble with their roomers, they are struck with dismay by the receipt of a telegram from the owner of the house informing them of his unexpected return. This leads to more funny situations in Tom's endeavor to get rid of his lodgers but the comedy finally ends in the pacification of all concerned.

A great deal of interest is being taken by the colleges and schools about the play in the production of this farce. A pleasing feature of the evening will be the attendance of the alumni of the Polytechnic College who will make the occasion a sort of reunion for all the graduates of the school.

Foresters' Hall has been fitted up with a new stage and scenery and will be used on this occasion.

BUTCHERS' PICNIC AT IDORA PARK.

The Butchers' Union will give a old-fashioned barbecue and picnic at Idora Park on Saturday, May 7, at which there will be exhibitions of rough riding, "brunco busting" and contests in lariat throwing. There will be a display of fire works in the evening.

THE FRENCH WILL CELEBRATE.

Under the auspices of the French societies, "Union Francaise," "Circle and Court Sadi Carnot," a mass meeting of French residents of Oakland and Alameda County in general is to take place at Foresters' Hall, corner of Thirteenth and Clay streets on Sunday, April 24, at 2 p. m. The meeting is called to take the preliminary steps for a grand public celebration at Shell Mound Park or "La Quatorze Juillet."
